

TORO supports EGCOA Members:

Benefit from the TORO rebate program

TORO is the preferred supplier of turf maintenance and irrigation equipment for the EGCOA. TORO is the quality brand in golf course maintenance equipment. Because of the partnership with TORO, members of the EGCOA receive a 1% rebate on conversion and new bought equipment. This can save thousands of euro's, having direct impact on your revenue.

Innovation is a philosophy that has helped TORO to maintain its leadership in the golf industry. TORO is dedicated to improving the game of golf by providing industry-leading solutions and investing in new products, relationships, agronomic research, education and environmental awareness. In doing so, TORO is able to better address the most pressing issues you face on a day-to-day basis.

Today, TORO continues to be the leading company in the turf care industry to offer both golf maintenance equipment and irrigation. And after 92 years in business, TORO is still adapting and innovating to meet customers' needs.

This is what members say about the TORO rebate program:

"In 2009, Golf- and Businessclub De Scherpenbergh decided to start managing the maintenance of our own golf course. Inherent to this decision was investing in a large number of machines. We have chosen for TORO, not only because of the quality of their equipment, but also because we could benefit from the international rebate program that the EGCOA offers. We would like to thank our trade association for this excellent work."

Joost Poppe, General Manager
Golf- and Businessclub De Scherpenbergh.

"Damme Golf & Country Club invests each year in new maintenance machinery to keep our course in tip-top condition and in 2007 as a new member of the EGCOA, we could benefit from the rebate program that Toro offers. These are the kind of purchasing solutions that make it so beneficial to be member of a trade association like the EGCOA."

Chris Morton, Managing Director
Damme Golf & Country Club

"We think that Toro is the leader when it comes to turf maintenance and irrigation equipment. We have used them since we started our golf course and are very happy that they support our European trade association and offer these kind of rebate structures."

Bent Roland Nielsen
Mariagerfjord Golf A/S, www.mfgk.dk

The rebate program: how it works

Step 1: Define your rebate:

Conversion rebates:

For each TORO mower, aerator, bunker rake, turf utility vehicle (20 h.p. or greater), irrigation sprinkler, irrigation satellite and irrigation central control unit purchased by a EGCOA member that is 1) not a replacement of a TORO product; or 2) not an additional piece of TORO equipment in a TORO product category already utilized by the EGCOA member, TORO shall pay the EGCOA a fee equal to 1% of the cost of the product and accessories (excluding sales tax, shipping costs and set-up fees).

New Course Rebates:

For each TORO mower, aerator, bunker rake, turf utility vehicle (20 h.p. or greater), irrigation sprinkler, irrigation satellite and irrigation central control unit purchased by a new course that is an EGCOA member, TORO shall pay the EGCOA a fee equal to 1% of the cost of the product and accessories, excluding sales tax and shipping costs.

Note: TORO shall not be obligated to pay such fee on such sales if such EGCOA member is already receiving "national account" pricing, rebate(s) or terms on such sale by virtue of a separate national account agreement between TORO and a third party national account.

Step 2: Fill out the EGCOA/TORO Rebate Form

On the next page, you can find the form to receive your TORO rebate: please fax this form for any purchases, that fit in the above description (max. 6 months after your purchases) to us.

Step 3: Include the original invoice

To complete the rebate, we need to receive a copy of the original invoice of your purchases. Please enclose or fax this form together with the rebate form and send this to the EGCOA office.

After TORO transferred the rebate to the EGCOA, we will transfer it to you.
